

Sidee ayaan u maareyn karaa caabuqeyga guud?

Warqad xog xambaarsan oo loogu talagalay dadka qaangaarka ah oo ay da'aaddoodu tahay 16 iyo ka weyn

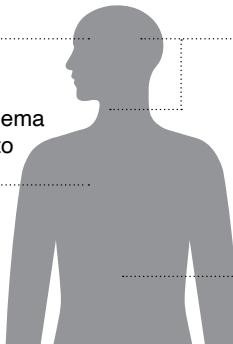

1 Waa maxay astaamaha caabuqa caamka ah?

Indhaha

- Indho guduudan
- Indho dhegdhieg leh
- Indhaha oo belbela ama dareema qaruurax ama ciid in ay ku jirto

Xabadka

- Qufac
- Neefsashada oo dhib kugu ah
- Qufacidda xab cagaaran ama jaalle ah

Dhegaha, sanka iyo cunaha

- Xanuun ama dikaan
- Sanka oo ku xiran ama duuf ka socda
- Quman bararsan

Caloosha-yarada

- Lallabo
- Matag
- Shuban

2 Sidee ayuu u badan yahay caabuqeyga?

Sanad walba Boqortooyada Midowdey ee Ingiriiska (UK)...

dadka qaangaarka ah waxaa ku dhaca 2 ilaa 3 hargab, celcelis ahaan

(wuxuunna aad ugu badan yahay carruurta)

1 ilaa 5 qof ayuu ku dhacaa caabuqa calool-yarada

1 ilaa 10 qof ayuu ku dhacaa caabuqa sanboorka

3 Sidee ayaan isaga dabiibi karaa caabuqa caamka ah?

Nasasho badan qaado ilaa aad ka roonaato.

Qaado xanuun baabi'iye haddii aad u baahan tahay (hubso in aad tilmaamaha raacdoo).

Cab dareere kugu filan (6 ilaa 8 koob ama galaas) si aad uga fogato fuuq-bax, oo hubso in aad si joogto ah u kaadiso.

Qufacyada, iskuday malab iyo daawooyinka qufaca. **Cune xanuunka**, isku-day macmacaanka daaweysan(lozenges) iyo xanuun baabi'iye.

Deji **caabuqyada indhaha adiga** oo indhaha hareerahooda si tartiib ah ugu qabanaya maro nadiif ah, oo lagu qooyay biyo la karkariyay ka-dibna la qaboojiyay.

Caabuqa ku dhaca dhegta-bannaankeeda, tixgeli in aad ku dhibciso goojooyinka dhegaha ee aan u baahnayn in dhakhtar uu kuu soo qoro.

4 Muddo intee le'eg ayuu caabuqeygu sii jiri karaa?

Qufac

3 ilaa 4
toddobaad

Cune xanuun
ama dhieg
xanuun

7 ilaa 8
maalmood

Hargab

14
maalmood

Norovirus
(matagga
jiilaalka)

2 ilaa 3
maalmood

Caabuqa
sanboorka

3 ilaa 4
toddobaad

Caabuqa
indhaha

7 ilaa 14
maalmood

**La xiriir dhakhtarkaaga guud (GP) haddii astaamuhu ay ka sii darayaan
ama haddii aadan wanaagsaneyn waqtiyada kore.**

5 Caabuqeygu ma u baahan yahay antibiyootig si uu u fiicnaado?

- Jirkaaga wuxuu caadi ahaan iskiisa ula dagaalami karaa caabuqyada caamka ah.
- Caadi ahaan uma baahnid antibiyootig haddii astaamaha caabuqa bakteeriyyada ah ay ka sii daraan mooyaane – raac talada xirfadlahaaga daryeelka caafimaadka ee arrintan ku saabsan.
- Qaadashada antibiyootig marka aadan u baahnayn waxay halis-gelin kartaa adiga iyo qoyskaaga.
- Raac talada xirfadlahaaga daryeelka caafimaadka ee ku saabsan antibiyootiga.
- Waxaad xog dheeraad ah oo ku saabsan antibiyootiga ka heli kartaa www.antibioticguardian.com.

6 Sideen u joojin karaa faafitaanka caabuqeyga?

Haddii aad u baahan tahay in aad qufacdo ama hindhisto:

Ku qabo
warqad (ama gudaha
suxulkaaga)

Iska tuur
warqada la
adeegsaday

**Dil adiga oo
nadiifinaya
gacmahaaga**

Gacmahaaga ku nadiifi ugu yaraan 20 ilbiriqsi saabuun iyo biyo ama jeermis-dilaha gacmaha lagu nadiifijo:

- ka hor inta aadan cuntada diyaarin oo aadan cunin
- ka-dib isticmaalka musquusha
- ka-dib taabashada xayawaannada
- rabbaayadda ah ama xayawaannada kale
- guriga marka aad ka baxayso iyo marka aad imaanayso

Ka fogaaw in aad gacmahaaga oo aan nadiif ahayn ku taabato indhahaaga, sinkaaga ama afkaaga. Haddii ay suuragal tahay, u jirso ugu yaraan 2 mitir (6 cagood) dadka kale, gaar ahaan dadka nugul ee reerkaaga.

Dad hala wadaagin walxaha gaara afkaaga, sida maacuunta wax lagu cuno iyo burushyada lagu cadeysto.

Cusboonaysii tallaaladaada iyo kuwa qoyskaaga. Mar walba qaado tallaalada jiilaalka (sida tallaalaka ifilada) haddii aad xaq u leedahay.

**Booqo ama wac farmashiye si aad u hesho talo dheeraad
ah oo ku saabsan caabuqyada caamka ah**

7

Waa maxay astaamaha jirrada ah ee halista ah ee ay tahay in aad iska eego?

Madax-xanuun iyo
matag daran

Qandho ama qarqaryo
joogto ah (heerkul ka sarreeya
38°C ama ka yar 36°C)

Dhibaatooyin
liqid

Qufacidda dhiig

Neefsasho ka degdeg badan
ama ka yar sida caadiga ah,
xabad xanuun ama giisanaan

Kalli xanuun dhabarkaaga ah
ee meel ka hooseysa feerahaga

Wadne garaac tartiib ah ama aad
iyo aad degdeg u ah oo cusub

Maqaar aad u qabow

Haddii aad isku aragto astaamaha kor ku xusan, si degdeg ah ula xiriir dhakhtarkaaga
guud (GP) ama isticmaal adeegyadan soo socda ee gobolkaaga loogu talagalay.
